Strategies, Objectives & Learnings on Venous diseases

PLENARY SESSION

**UNMET NEEDS, CURRENT CHALLENGES
AND NEW PERSPECTIVES IN VTE MANAGEMENT**

24TH MAY

08.45	Opening – A. Nicolaidis
09.00	ROUND TABLE – Current guidelines for VTE: unrevealing gaps and unmet needs <i>G.M. Andreozzi, A. Nicolaidis, G. Palareti, J. Raffetto, T. Urbanek,</i>
09.45	Open Challenges in post-thrombotic patient management <i>T. Urbanek</i>
10.15	Actual perspectives for Sulodexide in the long-term VTE management <i>G.M. Andreozzi</i>
10.45	<i>Break</i>

INTERACTIVE WORKSHOPS – 11.15/12.45 – 13.45/15.15 – 15.45/17.15

- 1. Individualized VTE treatment: optimal duration of anticoagulation and what to do next**
- 2. VTE in the elderly patient: basal risks and comorbidities to consider in the clinical management**
- 3. Long-term VTE complications: how to plan a preventive clinical management pathway**

Each delegate takes part in three workshops.

Lunch will be served at 12.45/13.45

Coffee will be served at 15.15/15.45

Plenary closing remarks 17.15/17.30

PLENARY SESSION

MULTITARGET APPROACH TO CHRONIC VENOUS DISEASE

25TH MAY

08.45	Opening – <i>A. Nicolaides</i>
09.00	Sulodexide breakthrough perspectives in CVD – <i>J. Raffetto</i>
09.30	Multifactorial etiology and patients heterogeneity in CVD <i>A. Nicolaides</i>
10.00	Multitarget approach in symptomatic Varicose Vein Disease <i>T. Urbanek</i>
10.30	<i>Break</i>

INTERACTIVE WORKSHOPS – 11.00/12.15 – 12.15/13.30 – 14.30/15.45

- 1. Management of the varicose vein patient evolving to C3/C4 clinical classification**
- 2. Management of the C3/C4 patient previously treated with phlebotonics**
- 3. Management of C5/C6 patient with previous PTS**

Each delegate takes part in three workshops.

Lunch will be served at 13.30/14.30

Plenary closing remarks 15.45/16.00
